Resolution:			
Description			
I looked @ the sql plugin, but without knowing more i am not sure how to implement pgsq support for strongswan. Pgsq support would function just like the sqlite and mysql dbs currently do.

Have a look at the mysql and sqlite plugins since a postgres plugin would have to be modeled after them:

<http://wiki.strongswan.org/repositories/browse/strongswan/src/libstrongswan/plugins/mysql>

<http://wiki.strongswan.org/repositories/browse/strongswan/src/libstrongswan/plugins/sqlite>

Hello,

Tell me please - are you have any updates of this ticket? (postgresql support)

#3 - 03.09.2019 16:49 - Nabil Alaoui

I was going to ask the same thing as Dmitry. Any updates?

Also, do you guys have a donation page?

Nabil

<https://sketchgrowl.com> (for contact details, I'm a pet portrait artist when I'm not coding lol)

- Status changed from New to Feedback

I was going to ask the same thing as Dmitry. Any updates?

No. And there are currently no plans to implement a PostgreSQL plugin. If somebody wants sponsor it, please contact us directly. If somebody wants

to implement it, see [contributions](#).

Also, do you guys have a donation page?

Only via crypto currencies (see the donation button on <https://wiki.strongswan.org>).
