

strongSwan - Issue #2164

How to disable Extended sequence number support

02.11.2016 09:06 - Jeonghoon Lee

Status: Closed	
Priority: Normal	
Assignee: Tobias Brunner	
Category:	
Affected version: 5.1.2	Resolution: No feedback
Description Hi~ Can I make strongswan to disable ESN support? I want to limit the number of transform sets (up to 10) sent during the ePDG authentication. Could you give me a help? Thanks,

Can I make strongswan to disable ESN support?

I want to limit the number of transform sets (up to 10) sent during the ePDG authentication.

What do you mean exactly? The ESN transform is [mandatory](#) in IKEv2, so if ESN is not supported or disabled this has to be explicitly part of the proposal (value 0).
