| Category: | osx | Resolution: | Fixed |
| Target version: | 5.6.1 | | |
| Affected version: | 5.6.0 | | |
| Description | | | |
| After upgrading to Mac OS High Sierra, the Mac OS app version 5.3.2-1 doesn't want to connect anymore giving the error "No common traffic selectors". | | | |
| It did work on Sierra and earlier. | | | |
| I attached the logs below. | | | |

History

#1 - 06.11.2017 10:11 - Tobias Brunner

- Tracker changed from Issue to Bug
- Status changed from New to Feedback
- Assignee set to Tobias Brunner
- Target version set to 5.6.1

```
created TUN device: utun2
virtual IP 172.30.1.1 did not appear on utun2
installing virtual IP 172.30.1.1 failed
no acceptable traffic selectors found
```

Yes, that's a known issue, which is fixed (or rather worked around) with [039b85dd43](#).
