

strongSwan - Issue #2667

Feature #2095 - Support liveness check in Strongswan

21.05.2018 14:30 - Leela Mohan Peruboina

Status: Closed	
Priority: Normal	
Assignee:	
Category:	
Affected version: 5.1.2	Resolution: Duplicate
Description Hi, Do you have any plan to support liveness check with TIMEOUT_PERIOD_FOR_LIVENESS_CHECK attribute in 3GPP 24.302 in Strongswan? The UE may support the TIMEOUT_PERIOD_FOR_LIVENESS_CHECK attribute as specified in subclause 8.2.4.2. If the UE supports the TIMEOUT_PERIOD_FOR_LIVENESS_CHECK attribute, the UE shall include the TIMEOUT_PERIOD_FOR_LIVENESS_CHECK attribute indicating support of receiving timeout period for liveness check in the CFG_REQUEST configuration payload. If the TIMEOUT_PERIOD_FOR_LIVENESS_CHECK attribute as specified in subclause 8.2.4.2 indicating the timeout period for the liveness check is included in the CFG_REPLY configuration payload or if the UE has a pre-configured timeout period, the UE shall perform the tunnel liveness checks as described in subclause 7.2.2A. NOTE: The timeout period for liveness check is pre-configured in the UE in implementation-specific way Thank You. Leela Mohan P

Dear Tobias Brunner,

Thank you for reply.

Can you please share the change set for support liveness check.

Can you please share the change set for support liveness check.

Did you even look at [#2095](#)? It's not yet implemented.

Thank you for reply.

I have gone through [#2095](#) and understood that it is not implemented.

But as I was confused by your first comment "Is duplicate of Feature [#2095](#): Support liveness check in Strongswan added". I thought the feature is added. so asked for change set.

Is there any plan to support this feature ?

#6 - 22.05.2018 10:14 - Tobias Brunner

Is there any plan to support this feature ?

It's a duplicate of the existing issue so what I wrote still applies. If you are really interesting in this feature, you might want to consider sponsoring it's development.
