

strongSwan - Issue #2852

Query: A plugin to get the tunnel IP

07.12.2018 10:22 - Ramya R

Status: Closed	
Priority: Normal	
Assignee: Tobias Brunner	
Category: configuration	
Affected version: 5.6.1	Resolution: No feedback
Description Hi, Is there any way (apart from "ipsec statusall") to get the status of tunnel and tunnel IP from strongswan. Is there any plugin or some configuration so that the tunnel IP and status can be retrieved.

Use [vici](#) or write your own plugin, and there is also the [lookip](#) plugin (query active connections by virtual IP). Depending on the address pool queries can also be made by identity.
