

strongSwan - Issue #3330

Compatibility support with libreswan

05.02.2020 11:43 - Akash Mishra

Status: Closed	
Priority: Normal	
Assignee: Tobias Brunner	
Category: configuration	
Affected version: 5.8.2	Resolution: No change required
Description	
Hi,	
Is it possible to establish IPsec if one of the endpoint is configured with libreswan?	
I need to setup a Ipsec tunnel between two hosts. One host is configured with Rhel-7 that uses libreswan software & second one is installed with SLES 15, uses strongSwan.

- Affected version set to 5.8.2

Is it possible to establish IPsec if one of the endpoint is configured with libreswan?

Yes, most likely.

Thanks,
Any referenced guide or documentation, great help to understand.

#3 - 05.02.2020 12:09 - Tobias Brunner

Any referenced guide or documentation, great help to understand.

[UserDocumentation](#), libreswan sure has its own documentation (note that the configs are not compatible).

#4 - 24.09.2020 17:42 - Tobias Brunner
