

## strongSwan - Issue #3377

### Interface ID not configured during HA synchronization

18.03.2020 10:13 - jungwon park

<b>Status:</b>	Feedback	
<b>Priority:</b>	Normal	
<b>Assignee:</b>		
<b>Category:</b>	high availability (ha plugin)	
<b>Affected version:</b>	5.8.2	
<b>Description</b>		<b>Resolution:</b>
Hi~		
I setup two nodes using the ha plugin. In addition, Route-based VPN was set up through the XFRM interface. When the SA is installed by receiving the synchronization message, the if_id(interface ID) is not configured.		
Thank you.

I setup two nodes using the ha plugin. In addition, Route-based VPN was set up through the XFRM interface.

This combination is not really supported.
