

strongSwan - Issue #3412

Not able to load pcrypt

16.04.2020 13:39 - hitesh hapani

Status: Closed	
Priority: Normal	
Assignee: Tobias Brunner	
Category: kernel	
Affected version: 5.7.0	Resolution: No feedback
Description Pcrypt loading cmd(sudo modprobe tcrypt alg="pcrypt(authenc(hmac(sha1),cbc(aes)))" type=3) is failing with error(modprobe: ERROR: could not insert 'tcrypt': Resource temporarily unavailable). Not seeing pcrypt driver loaded in /proc/crypto To load pcrypt, is it necessary that value of CONFIG_CRYPTOPCRYPT in /boot/config-* file must be y ?
