s/callback/fallback/

#2 - 01.04.2008 08:58 - Martin Willi

This is most likely a problem of the insertion/removal of credential_sets (ocsp_wrapper) while another enumerator is on the list. The reimplemented enumerator in r3711 should fix the problem.

I was unable to test the scenario, as my winnetou's apache won't execute ocsp.cgi. Please rerun the test.

#3 - 02.04.2008 09:45 - Martin Willi

- Status changed from New to Closed

- Affected version set to fixed
