

strongSwan - Issue #3577

StrongSwan Connection adding and deleting over network.

24.09.2020 16:35 - Vinay P

Status: Feedback	Resolution:
Priority: Normal	
Assignee:	
Category: configuration	
Affected version: 5.9.0	
Description	
Hi,	
I am working on a project where the Strongswan is running in a container, and we need to install connections from the host system to the container. Do we have any plugin to control Strongswan over network connection?	
Thanks & Regards, Vinay	

History

#1 - 24.09.2020 16:44 - Tobias Brunner

- Tracker changed from Feature to Issue
- Category changed from charon to configuration
- Status changed from New to Feedback
- Start date deleted (24.09.2020)
- Affected version set to 5.9.0

[vici/swanctl](#) can use TCP.

Thanks Tobias for a quick reply, can you point me to some samples if possible to understand how to configure the Strongswan, to accept remote connections.

#3 - 24.09.2020 17:25 - Tobias Brunner

can you point me to some samples if possible to understand how to configure the Strongswan, to accept remote connections.

Just follow the links and look around our wiki ([UsableExamples](#) doesn't seem hard to find either).
